

DIY Mason Bee House

Tools Needed:

Drill
Saw
Chambers or tubes from plain paper
1- Untreated cedar fence board
Carpenter Square
Weather resistant, thin, screws

Directions:

Paper Rolls

Roll plain paper into $\frac{1}{4}$ sections
Roll each piece around a pencil and tape the end
Remove the pencil and fold the other end over and staple or tape the end closed

Bee House

Measure down 8in. and cut wood for back of bee house
Cut 2 more pieces the same length to serve as the sides of the house
Cut 2 - 6 $\frac{1}{2}$ in. piece to serve as the roof of the house
Cut 1 - 6in piece to serve as the bottom of the house
Once all pieces are cut, connect with screws
Mount house to its place then add paper tubes
Place 4 in. piece of wood on top of paper tubes to keep them in place
